EDUCATION

University 2022 - current Kabarak university
(B.SC Computer Science)

High school 2018- 2022

Baringo high school

AWARDS &

CERTIFICATIONS

- CRIW innovation certificate- Health Sphere
- Tools of Trade: Linux and SQL.
- Play it Safe: Manage Security Risk (june 2023)
- Network and Network Security.
- introduction to Tensorflow for Artificialia; Inteligence and Machine Learning (march, 2024)

SKILLS

Android: Kotlin, Jetpack compose, xml,retrofit, dagger hilt database: T-SQL, MongoDB, PostgresQL FireStore, Networking and Infrastructure-Virtualization, Subnetting,DHCP,TCP/IP, network security ERP -NAV , C/SIDE AI&ML: Tensorflow, Keras,jupyter notebook,

REFEREES

Henry Mibei , Phone: 0722451231
Ketepa, Kenya

Dennis Sang
Microsoft Dynamics Business Central/NAV Developer
Phone: 0746928506

PROFILE

System Developer with 3+ years of hands-on experience building

scalable mobile, web, and enterprise systems. Currently an ICT Intern at GFL with practical exposure to T -SQL, virtualization, networking, and ERP systems. Strong in Kotlin (Jetpack Compose) and Microsoft Dynamics NAV (C/ Side). Adept at delivering secure, efficient, and business-aligned software solutions.

PROF FESS IONAL EXPERIENCE

ICT Intern - GFL
2026 JANUARY - Present

- Writing and optimizing T -SQL queries, stored procedures, and database operations
- Supporting virtualization environments and infrastructure setup
Configuring and troubleshooting TCP/IP networks (DHCP ,subnetting, connectivity issues)
Supporting ERP workflows and system integrations
Assisting in system maintenance, security hardening, and performance optimization

HACK AT HONS & OPEN SOURCE COLLABORATIONS

- HealthlT Hackathon - Kabarak University (Sept-Nov 2024)
- Collaborated with Palladium & HealthIT teams (Developer Role)
- MAMASHub - Kabarak University Online (Aug 2024)

PROJECTS

- Exhibition Registration & Validation web and android based system for attendee registration.validation using QR-Code technology
 - HealthSphere App (Android) — Developed an Android health app with lab test access, doctor appointments, dashboards, and real-time updates using Kotlin and Firestore.
- Mobile Risk Analysis System — Created a mobile solution for capturing, assessing, and reporting risk data for decision support.
